

Present Jason Heng CPDT-KA CNWI
Skill Building Workshops
K9 Nose Work™

Registration is open!

July 7th Friday – NW 1 & 2 - Handler Skill Development - Leash handling, planning for covering the area, container strategies and ways to avoid mistakes. Gain confidence in handler skills for when your dog is at odor and how teams can avoid common mistakes. Are you creating patterns in your training that you don't really want to be repeating in your training? It is these repetitive patterns in our own habits that create problems in competition. Leash games - to help you develop better leash skills based on what you may encounter in trial environments.

July 8th Saturday – NW3 & Elite – Time Mapping - Nosework time is the probability of finding None, All, the next hide or the last hide in an area. Spending too much time and the probability of talking your dog into a hide increases, spend too little and the risk is you miss a hide. For Elite, every second counts – finding 1 more hide might be all the difference. The environments we search change so much and have so much variation it might be better to be planning our search based on Time rather than any pattern we can devise on trial day. Practicing creating better management of time will work for all searches.

July 9th Sunday – Puzzles Hide Placement - Small changes and details in an environment can make big challenges – take some small-scale view of your practice and turn it into fun new challenges for you and your dog. This working seminar is for anyone looking for advanced problem solving in detailed micro environments; Trapping odor, Doorways, Hallways, Slopes, Stairs, Stages, Shade – Shadows, Edges, Chaos! Where does the odor boogiemán live – under the stairs in the shadows, behind the door, above the door, just at the edge? Be willing to explore and experiment with new challenges!

Friday – Working spot - \$125 - Audit - \$75 (10 working spots available) 10 a.m. to 4 p.m.

Saturday – Working spot - \$125 – Audit \$75 (8 working spots available) 10 a.m. to 4 p.m.

Sunday – Working spot - \$125 – Audit \$75 (8 working spots available) 10 a.m. to 4 p.m.

Unlimited Audit spots
